Leave at home:

fireworks, shaving cream, knives, other weapons, expensive stuff, food

A word about phones:

Normally, reception is passable to good at Pinecrest. Wifi is not generally available. Consider this a good time to take a technology break.

And about food:

Our cabins are food-free spaces because critters follow food. While our menus accommodate for many major allergy groups, you may feel more comfortable bringing your food with you if you have multiple or severe allergies. Please let the kitchen staff know if you've brought food so they can store, prepare, and serve it as safely as possible.
